## Cutting-edge designers choose new products that make them happy

Lindy Roy  
RDY Design  
New York City

Induction Dynamics' SolidDrive Technology allows for a speaker to be placed in any solid surface including walls and tables. Unnoticeable, the speakers are installed behind walls so that no wires are exposed. [www.soliddrive.com](http://www.soliddrive.com)

*"With the help of Videasonic, at Hotel QT in New York City I mounted the speakers into clear glass partitions defining the chequer area, with a sauna on one side and a steam room on the other. This product essentially turned each glass wall into a speaker."*

Stephen Jones  
SF Jones Architects  
Marina del Rey, California

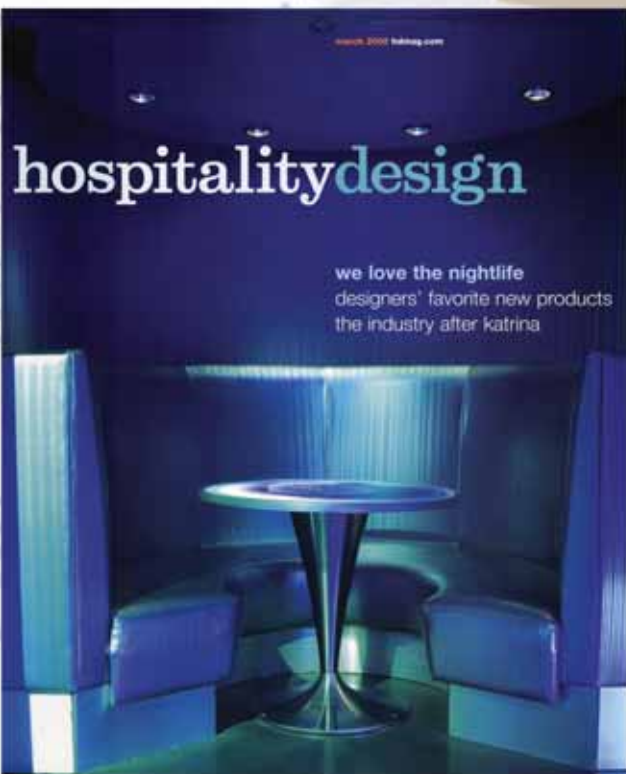

The Sculptured Collection, a new line of gouged MDF from Architectural Systems, Inc., offers textured panels appropriate for various applications in a variety of colors, lacquers, and metallics. [www.archsystems.com](http://www.archsystems.com)

*"This is a clean product with a lot of flexibility. It's unique and it looks very cool with lighting effects."*
