**INSIGHT ON INNOVATION®: ARCHITECTURAL SYSTEMS  
INTRODUCES ASI HARDWOOD FLOORING IV –  
ANOTHER CHOICE IN ASI HARDWOOD**

 A Sustainable Product from Architectural Systems, Inc.

NEW YORK (July 14, 2009) --- Architectural Systems, Inc. (ASI) has expanded its extensive line of hardwoods to include this newest collection of pre-finished, engineered flooring. ASI Hardwood Flooring IV is offered in two groups - Classic, which is smooth, and Vintage – Classic, which has a weathered and textured effect. There are six standard colors in each group, with a varied range of natural to dark colorations.

The cross-grain, 7-ply construction provides superior durability and stability, and the 8-coat, factory applied finish creates a protective wear layer with enhanced performance, both ideal for high traffic areas.

ASI Hardwood Flooring IV follows the strict guidelines of responsible manufacturing under the Lacey Act, which upholds any U.S. laws regarding the import, export, transport, or selling of wildlife or plants. The manufacturing practice is also CARB (California Air Resources Board) compliant, which regulates emissions and air quality. This product can contribute to LEED points for Innovation in Design regarding its eco-conscious processes.

One of three comprehensive sub-categories in ASI Flooring, ASI Hardwood offers engineered and solid hardwoods in a broad range of exotic and domestic species and a choice of thicknesses. Pre-finished or unfinished options are available to meet any project budget or job site criteria. ASI Flooring also includes ASI Resilient, which is comprised of luxury vinyl tiles for commercial applications, and ASI Stone, which provides the gamut of stone selection from natural to manmade, to also work with any budget and design parameter.

**About Architectural Systems, Inc.**

Established as a leading international distributor of architectural and sustainable materials, Architectural Systems, Inc. (ASI) is recognized by the design industry for its collective eye on “WHAT’S NEXT®”. Architectural Systems’ distinctive brand-name collections offer fresh, innovative solutions for commercial interiors and are streamlined into five categories: ASI Wood Panels, ASI Flooring, ASI Decorative Surfaces, ASI Specialty Products and ASI Display. ASI has an extensive selection of eco-friendly, sustainable materials in all of their brands. The company’s products are confidently specified by the foremost architecture and design firms and installed globally in major retail, entertainment, hospitality, corporate, healthcare, education and institutional projects.
