**INSIGHT ON INNOVATION®: ARCHITECTURAL SYSTEMS, INC.
INTRODUCES AN EXPANSION TO EMBOSSED WOOD –
GEOMETRIX™ COLLECTION**

 A Sustainable Product from Architectural Systems, Inc.

NEW YORK (July 20, 2009) ---- Architectural Systems, Inc. is excited to introduce Embossed Wood – Geometrix™ Collection, the newest addition to ASI Wood Panels. The Geometrix™ Collection combines state of the art technology and avant-garde designs in three-dimensional, geometric patterns for an extraordinary effect. They were developed as an expansion to an existing favorite product, Embossed Wood.

The textured surfaces are available single or double sided, in four wood veneers, black, and a lacquerable foil. There are over 500 product variations for the 11 patterns in this collection, including custom colors for the lacquerable foil veneer. These vast options allow for extensive application possibilities, including focal walls, furniture, and display. The panels are offered in five thicknesses, with edge-banding available, and can be specified with matte and high gloss finishes, or unfinished.

Both the original Embossed Wood and the Geometrix™ Collection have no added urea-formaldehyde, for which they have earned Blue Angel certification, the first worldwide environmental label.

About Architectural Systems, Inc.

Established as a leading international distributor of architectural and sustainable materials, Architectural Systems, Inc. (ASI) is recognized by the design industry for its collective eye on “WHAT’S NEXT®”. Architectural Systems’ distinctive brand-name collections offer fresh, innovative solutions for commercial interiors and are streamlined into five categories: ASI Wood Panels, ASI Flooring, ASI Decorative Surfaces, ASI Specialty Products and ASI Display. ASI has an extensive selection of eco-friendly, sustainable materials in all of their brands. The company’s products are confidently specified by the foremost architecture and design firms and installed globally in major retail, entertainment, hospitality, corporate, healthcare, education and institutional projects.

As part of ASI's ongoing commitment to the environment, they are proud members of the USGBC (US Green Building Council) and affiliated with American Forests Global Relief campaign, planting two trees for every one harvested. They have been rewarded with a chain-of-custody certification from Scientific Certification Systems, following the guidelines of the FSC (Forest Stewardship Council).

Visit Architectural Systems, Inc. in its 5,000-sq.-ft. showroom in New York City’s Chelsea Design Center, or view the website at www.archsystems.com for additional collection offerings and the full line of interior finishes including sustainable products.
