

Inspired by the popular **Tropical Veneer Collection**, this new cost-effective product showcases handmade, organic materials in dimensional and mosaic designs. **Tropical Organic Wall Mosaic** is lightweight and backed on natural mesh, allowing flexibility for application on straight or curved surfaces. The interlocking system creates a seamless and exquisite effect. A fully sustainable product, every step of the manufacturing process has been considered in order to minimize impact on the environment. Please note that variations in color and texture may occur due to the nature of the material.
