

FEATURED PROJECT **SANFORDS** restaurant

A community mainstay, located in the heart of Astoria Queens, Sanfords Restaurant has been on the same corner for 80 years and continues to evolve with the changing neighborhood. Today, the family-owned restaurant is known for being one of OpenTable's "Top spots for brunch in America" and a place to celebrate life, family and friends.

Restaurant co-owner/designer, Gus Karalekas, shares in the video the evolution of a coffee shop into a popular upscale eatery with a hip lounge vibe and how **Cast Stone Dimensional Panels** were selected as the signature material in the expanded dining room, complementing the renowned Whiskey Bar, cuisine and ambiance in the repurposed space.

"The material fulfilled our creative vision as our customers think it's an actual reclaimed wood wall with all of the warm characteristics and none of the challenges and maintenance. The collaboration with ASI in one word.. seamless, from A-Z visiting the showroom to placing the order."
