

Interlock Eco-Panels: Natural Wood Artistically Crafted in Layers and Textures

NEW YORK, NY (September 14, 2016) – Architectural Systems Inc. introduces a new collection of streamlined patterns of Interwoven Eco-Panels with artistic colors washes in four contemporary shades of maple.

Constructed from recycled wood with a seamless interlocking installation, contrast and depth can easily be added to any setting. These panels are backed with birch and finished with a low-sheen, UV varnish with thickness ranging from 11/32" to 13/32".

"Interlock Eco-Panels are an excellent addition to one of ASI's most specified collections," stated Nancy Jackson, President of Architectural Systems. "This well-received product adds an organically graceful design that translates trends in all industry segments"
