Juice and Smoothie Bars** p

Flexible Wall Protection
Engineered to perform in high-traffic areas and public spaces, shields walls from repetitive damage. Resists tough food and beverages and can be cleaned with bleach. Made of 33-ounce vinyl and a proprietary 30 percent recycled content. Available in three patterns: Pacific Halcyon (right) and Rainforest (bottom).

Reclaimed Teak, Reclaimed Pine
Island Timber's original design features a meshed tile arrangement of reclaimed teak designed to resemble Indonesian teak heartwood. Each strip is a wood core of Indonesian teak heartwood over a grade pine. This composition provides stability, allowing the unstressed teak to be shown in various designs. Available in shades of weathered gray to smoky brown.

Thin, Lightweight Veneers

Swick Natural Wall Coverings are thin, lightweight and flexible veneers with a two-part polymer-mineral powder system fixed to a fiber weave backing, creating an elevated industrial aesthetic. Hand-crafted, Class A Fire Rated upon request and easy to install on curved or straight walls and millwork.

Reclaimed Gap Wood Surfacing
For shiplap, Centennial Gap is milled using a groove technique that creates a gap between the boards equal to the thickness of a board. Boards are 3/8-inch thick with a 1/2-inch groove and come in 4- or 6-foot lengths. Made from reclaimed wood boards and satisfying LEED MR3, eligible for MR5 credits.
