NuFlors and Architectural Systems, Inc. Partner to Bring New Gekko Vitta LVT Flooring Using SetaGrip Technology

PRWeb | [FOLLOW+](#)July 10, 2018 10:31am | [Comments](#)

Architectural Systems, Inc. (ASI) utilizes NuFlors' SetaGrip Technology for the new adhesive-free Gekko flooring line.

NEW YORK (PRWEB) July 10, 2018

NuFlors, a New York based LVT flooring expert, has partnered with [ASI | Architectural Systems](#) Inc., an industry leader in the commercial segment, to bring a much anticipated hassle-free and efficient option to the flooring industry. Earlier this year, ASI launched the exclusive [Gekko Vitta LVT to the ASI Resilient Flooring collections](#). The product from ASI, Gekko Vitta LVT, uses NuFlors' [SetaGrip technology](#) to create an adhesive-free bond to any existing non-porous surface. SetaGrip's patent pending vacuum suction layer uses nano-sized pores to generate a strong adhesion that solves the installation and maintenance problems brought on by other LVT products and installation methods.

"We're excited to partner with ASI to bring this revolutionary technology to the architecture and design industry," says NuFlors Managing Partner, David J Kim. "We've engineered the first true hybrid, glueless system and we want to educate everyone... flooring experts, installers, architects, designers, etc. on the benefits of SetaGrip and why they should be using this technology."

"ASI/Architectural Systems is very excited to introduce this innovative and solution based flooring material to the contract markets. Gekko Vita, with a modern color palette and propriety adhesion technology has all the aesthetic features and performance benefits that truly make it a game changer when specifying a Resilient Floor," stated President, Nancy Jackson

[SetaGrip](#) was launched in January of 2018, and first introduced to the flooring industry at BuildingsNY in May 2018. The flooring technology was embraced by the attendees who got to [experience firsthand](#), the strength and efficiency of SetaGrip Technology.

About NuFlors - NuFlors™ entered the flooring industry by sourcing PVC tiles for a major New England based importer since 1990. As the industry evolved, NuFlors™ focus evolved into developing sophisticated technologies for the advancement of what is now called Luxury Vinyl tiles (LVT) and commercial sheet vinyl (CSV). For over 10 years NuFlors™ has been focused on supplying private labeled products to some of the major flooring manufacturer brands in the United States. NuFlors' dedication to flooring innovations led them to develop and launch the breakthrough, patent-pending SetaGrip™ Technology flooring system. " We've started RnD work for wall panels and other home improvements products and are excited to see where this technology will continue to develop." says NuFlors Managing Partner, David J Kim.
